

Wendy James Hypnotherapy Covid Protocol

COVID Protocol Client safety is taken seriously. Please read this carefully, to understand my procedure for avoidance of infection transfer.

Please arrive wearing a mask/face covering. If applicable, please remain in your car until I collect you/invite you in. Only you (the client) can enter the therapy centre/room. If you choose to, you can bring a light blanket/throw in a bag for warmth or comfort during your hypnosis session.

Please bring your own pen for signing any Terms & Conditions etc

Please bring your own bottle of drinking water if required.

Toilet facilities will only be available in an emergency in my personal therapy room, this does not apply to the therapy centre that I work from.

On arrival, I will ask you to use the hand sanitiser provided and to read and sign the following:

I, the client confirm that at this time:

- Am not in the vulnerable category
- Neither I nor any member of my household has a temperature, a cough or other symptoms of Covid 19
- I am not aware of having been in contact within the past 14 days with any person who has shown symptoms or tested positive for Covid 19
- I have not been contacted by the NHS Track and Trace team
- I am not in quarantine
- I will be wearing a face mask on arrival

| Please print name and signature | Date |
|---------------------------------|------|

**In some circumstances we may be able to remove masks in the therapy room where there is adequate distance between us or for any valid reasons that might impact the success of our hypnotherapy sessions.*

nb. In my personal therapy room I am limiting my face to face clients to two per day to reduce any risk of cross infection; this does not apply to any rented therapy space. The furniture that you will be using in my personal therapy room is sanitised after each client. Other cleaning procedures will be thoroughly carried out.

Thank you for your assistance during the Covid 19 Pandemic environment.
